

Aim Annual Report

April 01, 2021 to March 31, 2022

Head Office 61, Vasudev Nagar, Kamta, Chinhat, Lucknow-226028, U.P. India Mobile- 9415121462, Whatsapp - 7985297513 Email- aimlucknow@gmail.com Website- --<http://aimindiatrust.org/> Facebook-- <https://www.facebook.com/aim.trust.9> Twitter---- <https://twitter.com/AimLucknow> Instagram--aimtrustngo

About Organisation

Aim Trust is an association of people working towards the development, empowerment and fulfillment, protection and respect of rights of men, women, transgender and children and to ensure that it reaches the marginalized sections of society including children Dalits, minority, tribal, migrants, transgender and women. Aim believes that poverty can be addressed through integrated and participatory development approaches. From its inception in the year 1999-2000, Aim works for/with marginalized, underprivileged and weaker section of the society. Aim working approaches are development oriented right based, livelihood creation, capacity building, interactive, formation of Community Groups (CGs), strengthening of Community Based Organizations (CBOs), sponsorship of children for ensuring child rights, environment protection etc. Our target groups are children, women farmers, rural youth, elderly people, tribal and communities who are excluded from socio economic development. Aim Trust is a registered humanitarian, nonprofit, nonpolitical, non-sectarian and non-government organization registered under the Indian Government.

Objective

- A. Facilitating health and education services to vulnerable families, creating models of sustainable livelihood options to improve the quality of lives of the marginalized.
- B. Promoting collective action among Women Self Help Groups, CBOs and Producer Organizations by building capacities and technical expertise to effectively address the issues at different level.
- C. Promoting the climate resilient practices and protecting the environmental destruction.
- D. Emergency Response (Covid relief, flood, cold wave and drought relief)

Vision

A society where each and every woman, man, girl, boy and Trans gender (TG) could lead life in dignity.

Mission:

To work for holistic development of marginalized, stigmatized and excluded girl, boys, women, men and TGs to address their basic needs and enhance their quality of life.

Approaches

- **Facilitating marginalized and excluded groups for access to welfare services.**
- **Introducing issues specific campaign such as anti-female feticide, violence against women towards long lasting result.**
- **Awareness building for education, Covid vaccination at different levels.**
- **Information sharing on welfare of children, person with disability, person living with different stigmas.**
- **Collaborative approach with diversified groups – such as community organizations, academicians, like minded NGOs, corporates etc.**

Strategies

Based on the mission, vision statement and comparative advantages, Aim Trust is playing an important role in the promotion of developmental practices. Aim Trust has decided to focus on following areas of intervention as strategy:

- **Intensive field level engagement and promotion of community models on child and women friendly local habitat, water, sanitation, food and nutrition, work & environment and livelihood issues.**
- **Information sharing with government officials on access to services and entitlements.**
- **Capacity building of children.**
- **We also engage in baseline on different range of issues such as Child Welfare, Food & Nutrition, and Shelter Rights for homeless, Environment, Water and Sanitation.**

Aim Programme of 2021-2022

Child Welfare

The second wave of COVID-19 hit the rural area hard. Initially, villagers were very reluctant towards Covid testing. In some areas, they even opposed the health officials. The villagers came forth only after people started to die of Covid. Moreover, villagers were overwhelmed with hesitancy to get them admitted to any hospital for Covid treatment. They preferred home isolation.

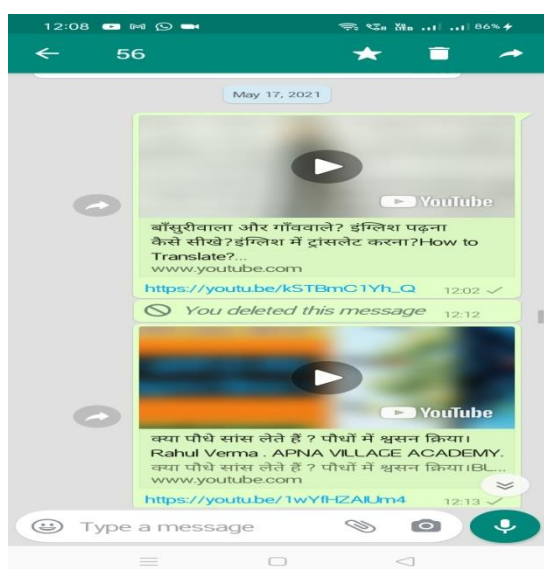

According to The Tribute news agency - As many as 1,044 children were infected with corona virus in the second wave, said the Health Department. Of them, 562 were boys and 482 girls. The department said only two Covid deaths were reported among children in the second wave. As per the data analysis, the infection among children was only 486 in the first wave last year. In order to prepare for the third wave, which is likely to impact children the most, the department has dedicated a separate Covid ward for children at private and government hospitals. Besides, the

department has asked all pediatricians to get all children tested, if anyone shows Covid-like symptoms.

Amidst second wave the pandemic school again got closed. Online classes were prohibited till the next order. As per the report children also became the victim of this virus. We have had to close our CAC, LC centres both the medium offline and online. This became a big challenging task for us to reach our children as our some of coordinators and field facilitators got infected. Coughing, fever, heart attack created panic among the villages and many lost their lives.

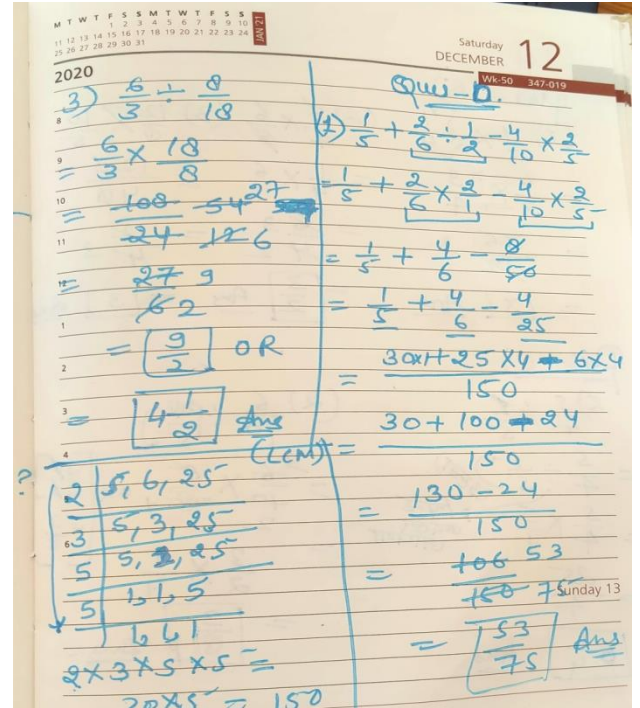

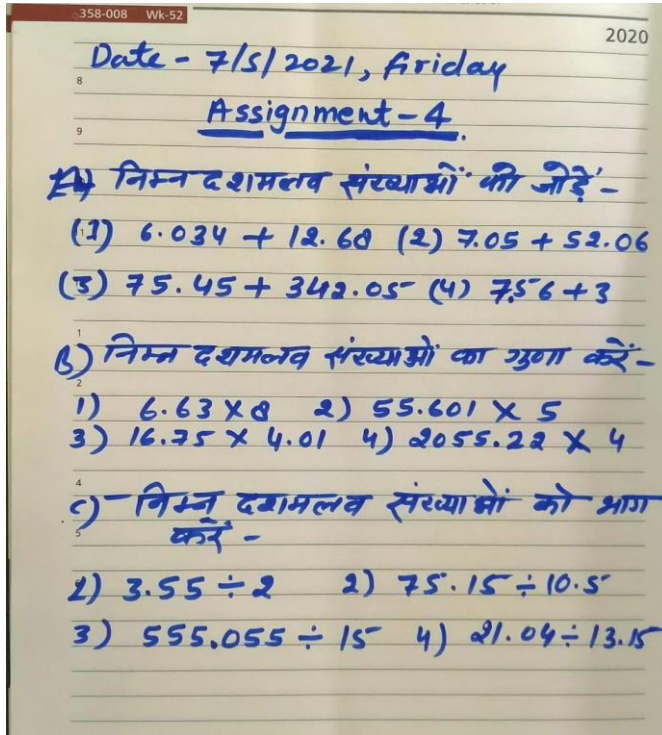

To make our children stay connected with their education we planned to send our volunteers door to door with proper precautions to give assignments to children in their villages. We kept on tracking the government schemes benefits to the community. When necessary our staffs visited the village to make the villagers and children meet the benefits of the free rations (PDS), Kisan Samman Nidhi scheme and awareness. Our team used to do work from home and visited the field when it became very important go. Tele communication helped to stay connected with them. We were able to connect with the children with help of whatsapp, zoom call, conference call and deliver the benefits.

Capacity building of the field staffs

Field staffs were motivated to learn basics of mathematics so that they can facilitate the centre facilitators in a positive ways. They were first taught by us and later on they were given assignments to solve and send back to us. Same process the field staffs used with the centre facilitator so do the children. They were motivated to prepare TLM from locally available resource and posters they are interested in. Tasks are given on alternate days and they send videos

regarding their queries or taught by Mr. Sanjay Verma, PC.

Door to Door teaching and online teaching

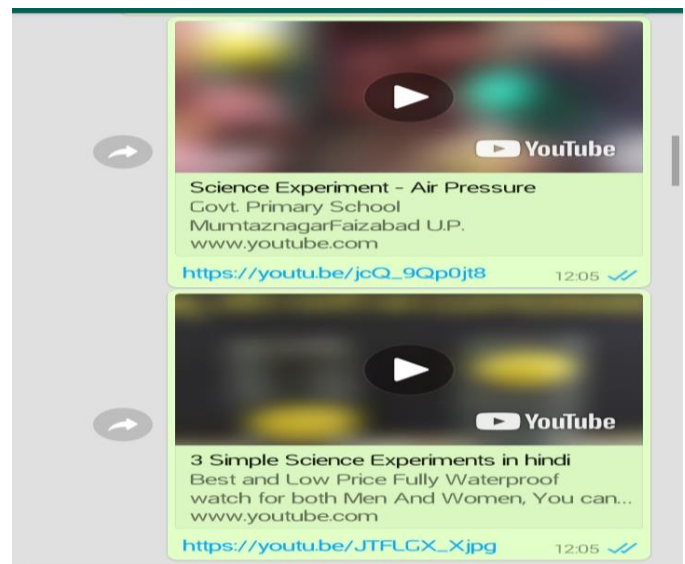

Due to the second wave of the COVID-19 our centres were temporarily closed to avoid infection

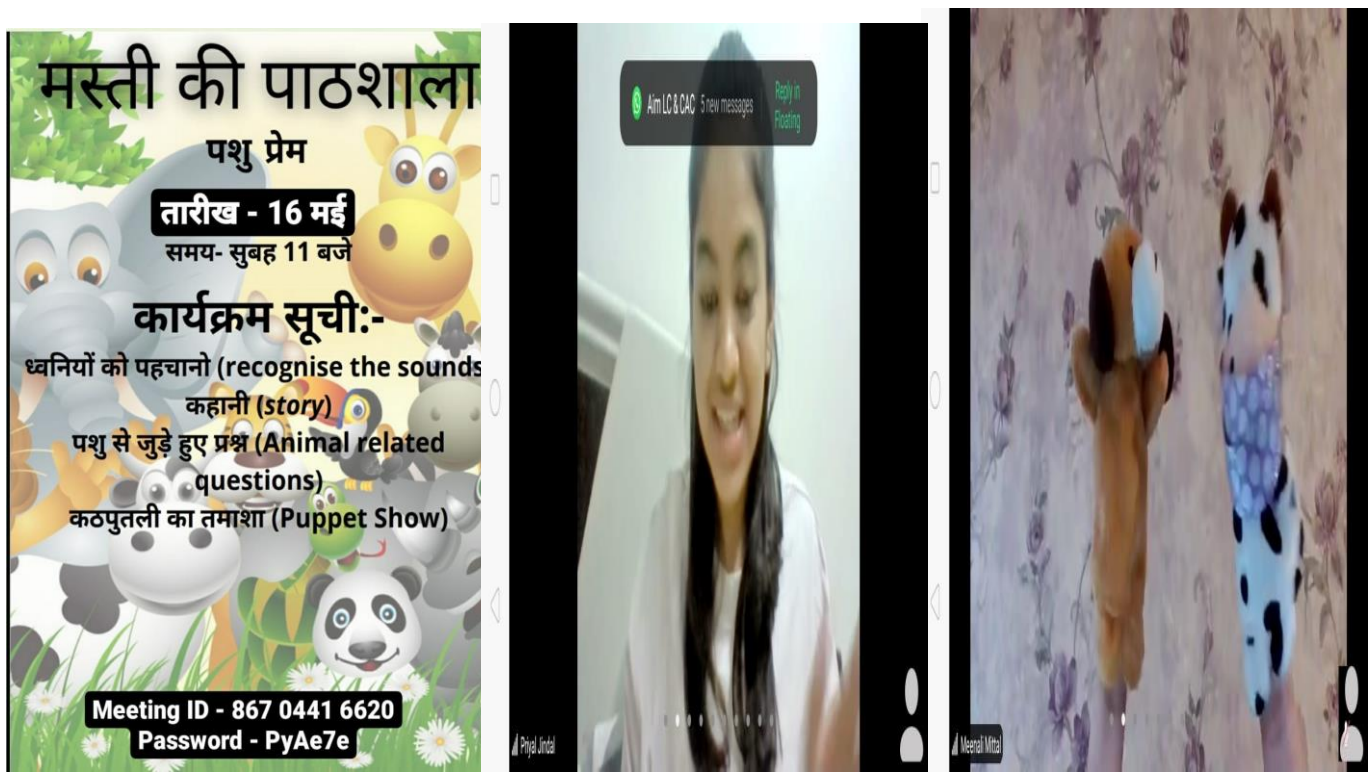

as per government order along with it online classes from 4 centres were also restricted. This became a challenge to keep our children touched with education as adolescents were eager to learn and connected. We saw that children were been engaged in home or in the field many children started going to the sugarcane field for getting money as their family don't have other means of earning. This is why parents also got the excuses to engage their children in work. We planned for door to door teaching method. Our centre facilitator goes door to door of the children and give them home work and assignments after teaching. Few centre facilitators used to call children of their villages in 4 or 5 numbers to teach them and give them assignments.

Focused on science and Covid Appropriated behavior of the children

Centre facilitator and the children enjoyed the science and learned experiments with 3D animations along with COVID appropriate behaviour through online

Children of CAC-1, CAC-2, LC-1 and LC-2, learnt about sign language

through fun

Our Staffs participated in the training

The poster features the MSF logo at the top left with the motto "MEDICINE SANS FRONTIERES" and "DOCTORS WITHOUT BORDERS". On the top right is the logo for "CHILD RIGHTS AND YOU". The central text reads "TRAINING WITH DOCTORS FOR COMMUNITY WORKERS ON COVID-19". To the right, it specifies the "DATE: 29TH MAY 2021" and "TIME: 11AM - 1PM". Below the title is a small portrait of Dr. Gautam Harigovind. To his right, a text box describes him as a Medical Doctor with a background in research and medical technology, currently working as the Medical Activities Manager with MSF's COVID-19 Emergency Intervention in Mumbai. At the bottom, contact information is provided: "For any further queries, contact sashadaya.apr@gmail.com".

Shivani from Osari village made beautiful coconut tree with the help of vegetables and flowers

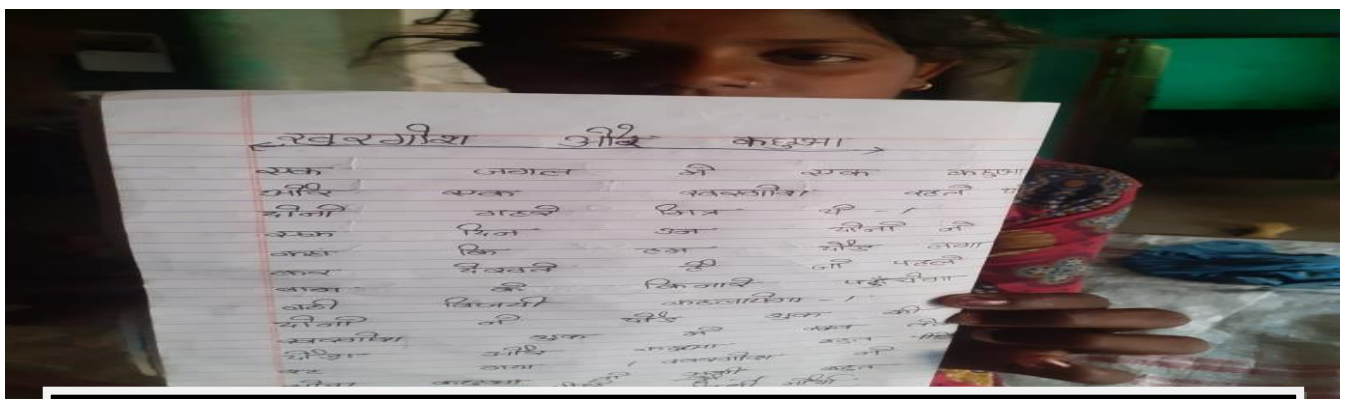

Adolescents of ofRampurva village made Rangoli

Children of Rampurva made peacock using locally available resources like soil, dried plants and color

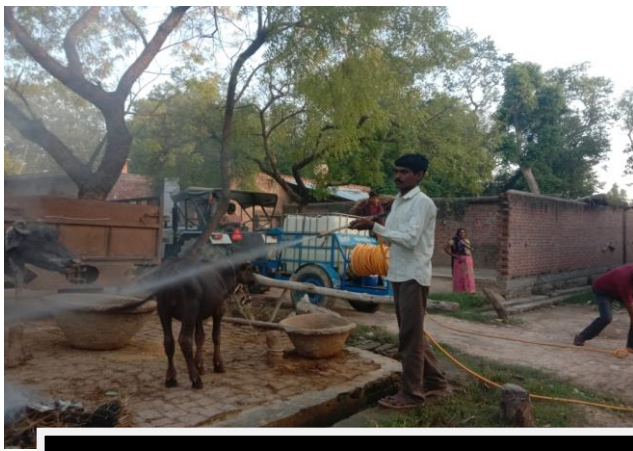

Children learnt how to write cursive alphabets and tried to write session taken by Sanjay Verma

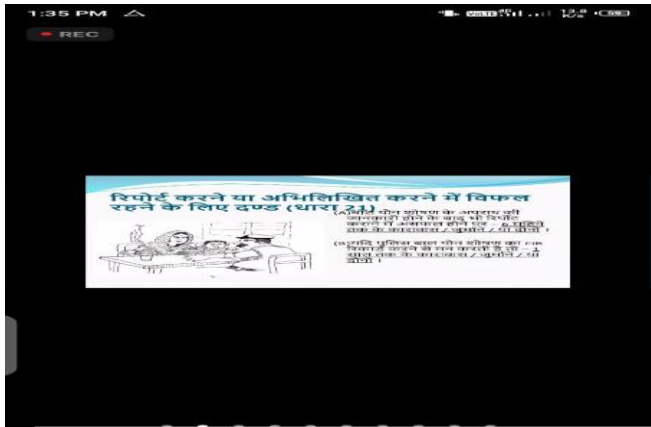

Khushbu from Vajeerpur village wrote story in Hindi- KargoshaurKachhua

Centre Facilitator from Osari village made TLM of solar system, continents and oceans

Sanitation work was done in the 15 villages out of 17 in our intervention area after meeting with Panchayat level officers regarding the same.

Our staff learnt about Indian constitution laws and rules regarding women and girls

1 जून, 2021 से उत्तर प्रदेश के सभी 75 जनपदों में मुफ्त टीकाकरण महाअभियान

18 वर्ष से अधिक आयु के सभी लोगों के लिए मुफ्त टीकाकरण महाअभियान प्रारंभ हो रहा है। अपनी बारी आने पर टीकाकरण अवश्य कराएं और कोरोना को हराएं।

कोविड-19 का टीका लगवाने के लिए www.cowin.gov.in या आरोग्य सेतु एप पर रजिस्टर्ड करें।

एनबीटी, सपोर्ट ग्रुप लखनऊ और आईएमए की पहल पर विशेषज्ञों ने दिए सुझाव

Awareness regarding government schemes and rules were generated in the villages including vaccination and MukhyamantriBalSevaYojana

Children of Dari village prepared crafts made of waste papers , foam and leaves

Children of Rampurva village and Bhagwant Nagar made toys made of waste material and vegetables

Children of Pakaria and Kaima village made poster of vegetables, peacock from leaves and bird from mud

Free rations were distributed among all GPs of our intervention area under PDS

Door to door testing were done among 10 villages

Case Study

The pandemic made Laale work in the field.....

Name – Laale

Age- 15 Years

Caste- OBC

Father Name-Jwala Prasad

Mother name- Jai Devi

Village – Revana

Block – Mitauli district Kheri,
Uttar Pradesh

Laale is a 15 years old boy, is a resident of Revana village block MitauliKheri. He has 4 siblings. His father is Mr. Jwala Prasad owns only 2 bigha of land and his mother is home maker. His father used to be ill and when he feels better works as a daily wage

worker. His economic condition is very poor. His elder brother Neeraj got married and lives separate from his family. His elder sister also got married. Now Laale and his two siblings live with their parents. We grow vegetable in two bigha of land. Due to the lockdown last year his education got disturbed as the schools were closed and his family was not able to satiate the need. He had no means of access

to education so after 8th standard he quit his education and started working in the sugarcane field for cleaning, sowing and irrigating @ 200 per day. The situation made Laale do to child labour. Laale said that hunger became more important than education for him as his elder brother separated himself from the family. He has no other means of income. His parents are not literate. His mother also works in other's field as a labourer to run the family.

Ankul's interest is increasing to come at our learning centre

Name: Ankul Kumar

Mother's Name: Mrs. Rita Devi

Father's Name: ShatrohanLal (SC Pasi Dalit)

Age: 9 years

Land: 10 Bishwa (half acre)

Address: Village-Kaima, Block- Mitauli, Kheri

My name is Ankul Kumar and I live in Kaima village, block Mitauli of Kheri. I am 9 years old and in 4th standard. I study in a government primary school of my village. My mother's name is Mrs. Rita Devi and she is a home maker. My mother has 1 buffalo and 1 baby buffalo she takes care and does all the house hold chores. My father's name is Mr. ShatrohanLal and he works as a labourer on a daily wage. My father studied till 8th standard in the government middle school of my village. My father has two sons the elder one is Ravi Raj 13 years old and the younger one is I. Ravi Raj is a student of 6th class. During the season of sugarcane my father works on local sugarcane crushers and in rest of time he works in the other's sugarcane field. He gets 200 rupees a day when work in sugarcane field and 250 rupees when works at crushers. I have only 10 *Biswa* (half acre) of land. My father gets 10-12 days work in a month rest of days he stays at home so the income is too low to cater all the needs of my family. My father has to buy everything for kitchen except water. I eat twice in a day. In the morning we eat Sabji and chawal and at night Roti and pulse and only tea as a breakfast. We eat less when don't have enough ration when we don't get work. Last year when I heard about the COVID-19 I had no knowledge about that virus and how to take precautions regarding the same. I thought that this will pass soon. But due to this pandemic all the schools were closed and I got cut from my education. Schools were closed since March 2020 and my family members faced a lot of challenges and also had spent the few nights without having food during the massive lockdown in 2020. Crushers were also closed so we had to face financial crisis and had to take loan from our close relatives. My father use to get work of 10-12 days only in a month. My family condition became more pathetic. So I started helping my father and also started going for work in sugarcane field in nearby villages. I get 80 to 100 rupees a day for sugarcane field hoeing. My elder

brother Ravi also goes to for work and he gets 100 a day for sugarcane hoeing. This is how I started working in the field and in sugarcane crashing season I also go to crashers and get 100 rupees a day. My mother also helps and come to field for work when she gets time she gets 150-200 for a day for hoeing depends on the work done but the story of crasher is different she gets 200 only but my father gets 250 rupees a day. I love studying and playing but my family conditions made me work. I keep books with me and when I get time start studying from own whether it is work place. I have heard about the online class but my father don't have mobile phone so don't know much about it. When I see children wear new clothes I too want to look like same but I don't have money to buy. When I go to my relatives they buy for me that I wear and sometimes my father buy for me. I want to study but when think about my family condition it is faded. My father holds MGNREGA job card and got work in the same during the first wave of the COVID-19 when the lockdown was eased. But in the second wave of Corona Virus he didn't get any work due to Panchayat Election. I was made aware about a learning centre in the villages where most of the children of my village go to learn. I have been regularly approached by Santram bhaiya. My parents and I made aware and motivated to not engage in the work and let me learn and play what other children do. I am going to learning centre but not regularly. I am very happy when be with children at learning centre in my village. Due to family pressure and my economic condition I go in the field with my father for work.

“We are in touch with the parents and now they have agreed not to send Ankul for labour work and his parents were made aware regarding the children's rights, hopes, inspirations and importance of education” Told by Santaram.

गण्डाबाई, १३ ग्राम पंचायत के १७ गांवों में बच्चों की शिक्षा, पोषण व सुरक्षा के लिए लर्निंग कॉर्नर व बाल गतिविधि केन्द्र संचालित

जान एक्सप्रेस संवाददाता

मितीली खीरी। हर बच्चे के लिए शिक्षा जरूरी, कोई बच्चा शिक्षा से वंचित न रहे, और न ही ड्रॉप आउट के कारण उनकी पढ़ाई बाधित हो। रतहरा स्थित कार्यालय पर आयोजित बाल केंद्रित गुणवत्ता पूर्ण शिक्षा परियोजना के अंतर्गत स्कूल चलो अभियान के तहत आयोजित कार्यक्रम में बोलते हुए एम ट्रस्ट-क्राई से कार्यक्रम समन्वयक हरीश ने कहा शिक्षा हर बच्चे का अधिकार है। संस्था द्वारा मितीली क्षेत्र के १३ ग्राम पंचायत के १७ गांवों में बच्चों की शिक्षा, पोषण, सुरक्षा के लिए लर्निंग कॉर्नर व बाल गतिविधि केन्द्र संचालित किये जा रहे हैं। साथ ही बाहर गांवों में कक्षा छः से आठ तक के बच्चों को निःशुल्क शिक्षा प्रदान करने हेतु ब्रिज कोर्स के माध्यम से गणित व विज्ञान विषय का केन्द्र संचालित किया जा रहा है। कोरोना काल में विद्यालय बन्द होने के कारण बच्चों में पढ़ाई लिखाई का जो माहौल चूट गया है उसको पुनः वापस लाना है अर्थात् जो लर्निंग गैप हुआ है उसको विद्यालय के साथ जुड़ाव कराना है। जिससे सभी बच्चे पुनः शिक्षा प्राप्त कर सकें ताकि कोई बच्चा ड्रॉप आउट न हो। इसी मुद्दे के संदर्भ में सभी गांव में स्कूल चलो अभियान का सफल आयोजन किया गया है और बच्चों की रैली निकाली गई। जिससे बच्चों का नामांकन उनकी नजदीकी विद्यालयों में कराने के साथ ही साथ विद्यालय में बच्चों की उपस्थिति व ठहराव, ड्रॉपआउट बच्चे ना हो तथा बाल श्रम में सम्मिलित बच्चों को शिक्षा से जोड़ने का कार्य किया जाय, साथ ही साथ नालिकाएँ शिक्षा, सुरक्षा, स्वच्छता, स्वास्थ्य संबंधी मुद्दे पर जागरूक हो। मालती देवी, रोमिल, संतराम, संदीप, रवि मोहन, आदि लोगों ने भी शिक्षा के महत्व पर प्रकाश डाला। कार्यक्रम में 'स्कूल चले हम' नाटक तथा 'कठपुतली, पेंपेट' के माध्यम से बच्चों ने शिक्षा के महत्व को बताते हुए शिक्षा के लिए तथा स्कूल में दाखिला लेने के प्रेरित किया इस अवसर पर संस्था के अमित कुमार निधि तथा ग्राम प्रधान, शिक्षक, लर्निंग सेंटर प्रभारी और गणमान्य लोग तथा सैकड़ों बच्चे मौजूद रहे।

स्वास्थ्य, पोषण, सुरक्षा के लिए लर्निंग कॉर्नर व बाल गतिविधि केन्द्र संचालित किये जा रहे हैं। साथ ही बाहर गांवों में कक्षा छः से आठ तक के बच्चों को निःशुल्क शिक्षा प्रदान करने हेतु ब्रिज कोर्स के माध्यम से गणित व विज्ञान विषय का केन्द्र संचालित किया जा रहा है। कोरोना काल में विद्यालय बन्द होने के कारण बच्चों में पढ़ाई लिखाई का जो माहौल

सेवा में,
 माननीय मुख्यमंत्री,
 उत्तरांचल सरकार, लखनऊ, उत्तरांचल

विषय : कोरोना के संभावित तीसरी लहर (Third Wave) को ध्यान में रखते हुये दिल्ली, खड़ी के आंगनवाड़ी सेवाओं का नियमित व प्रभावी संचालन करने के संबंध में निवेदन पत्र ।

महोदय,

एक दूरद एक गैर सफलता संस्था है जो जहाँ (चाहे वह राज्य एवम्) के साथ मिलकर खड़ी के निजी/कॉलेज के 17 गाँव में बच्चों की शिक्षा पर कार्य करता है। जैसा कि हमें ज्ञान है कि कोरोना की पहली और दूसरी लहर के हमारे परिवार को खुदी लहर से प्रभावित किया है। पिछले 4-5 महीनों से हम एक कर के साथ में भी रहे हैं। कोरोना संक्रमण के खतरों से धार-सह्य हमारा परिवार लोकप्रिय के कारण और आर्थिक तंगी को भी डोल रहा है। इन्हीं परिस्थितियों में खड़ी लहर आने की संभावनाएँ जहाँ जा रही है और वह भी कहा जा रहा है कि इस लहर से बच्चों को खतरा सकता है। जहाँ तक बच्चों के लिए कोई टीका भी नहीं है। ऐसे में बच्चों की सुरक्षा उनके अपने रोग प्रतिरोधक क्षमता पर निर्भर करेगा। इसके अतिरिक्त बच्चों, गर्भवती महिलाओं, छोटे बच्चों वाली माताओं, किशोरियों को समुचित चिकित्सा उपचार, निश्चित स्वास्थ्य जांच, परामर्श तथा स्वास्थ्य देखभाल आदि सुनिश्चित करना भी आवश्यक होगा।

महोदय, राज्य में आंगनवाड़ी केंद्रों से भी और भी ज़्यादा अन्य परिवारों को कई स्वास्थ्य व पोषण संबंधी सेवाएँ प्राप्त होनी रही हैं। कोरोना काल के दौरान आंगनवाड़ी सेवाएँ भी बंद/रूक गई हैं जिसके सीधा असर हमारे बच्चों के पोषण और स्वास्थ्य पर पड़ा है। कोरोना के संभावित तीसरी लहर से भी बच्चों की सुरक्षा के लिए आंगनवाड़ी सेवाओं के संचालन के संबंध में निम्नलिखित मांगें आपके सामने प्रस्तुत करना चाहती हूँ-

- आंगनवाड़ी के पोषकत्व के सभी चरों तक आंगनवाड़ी केंद्र से मिलने वाले पोषकत्व सुझाव सखन का काम देली/खड़ी सुनिश्चित की जाए।
- सभी किशोरियों तथा महिलाओं को मल्टीविटामिन व ज़िंक की गोली भी सखन के साथ उपलब्ध कराई जाए।
- बच्चों, किशोरियों और महिलाओं के निश्चित स्वास्थ्य जांच एवं परामर्श के लिए प्रत्येक 500 परिवारों पर आंगनवाड़ी सेविका की देखरेख में एक टास्कफोर्स का गठन किया जाए। इसके लिए महिला आरोग्य सचिवियों (एकमात्र प्रत्येक राष्ट्रीय स्वास्थ्य विभाग के सहित किया गया है) का गठन कर उन्हें निश्चित शिक्षा का सफलता है। इन टास्कफोर्स को कोरोना केंद्र (गर्भवती, अंतर्निरीक्षण, छोटे बच्चों, माता, स्वास्थ्य, फेसमार्किंग, डीजिटल) आदि को समुचित ध्यान में उपलब्धता सुनिश्चित की जाए।
- कोरोना संक्रमण सखन के माध्यम से हर घर तक चिकित्सा जांच के लिए, सैफ्ट एक्जम करने तथा डेली/कॉलेज के माध्यम से डीजिटली परामर्श का कार्यालय उल्लेख करने की व्यवस्था की जाए।
- आंगनवाड़ी केंद्रों से सभी किशोरियों तथा महिलाओं को डेली/केंद्र केंद्र (सीसीटी) पैक, सायुज, सर्फ, डीजिटल, आरक) आदि उपलब्ध कराई जाए।
- इसी तरह भी पता चलता है कि आगे वाली दिनों में हमारे मुख्य में किन आंगनवाड़ी केंद्रों को जल्दीकी विद्यमान में विफल करने की योजना है। यथाशय, देखा करने के भी और भी बच्चे आंगनवाड़ी के कुछ महत्वपूर्ण सेवाओं जैसे- सखन पूर्ण शिक्षा, सर्व पैक भीजा, तथा निश्चित टास्कफोर्स से अधिक हो जायेगा। अतः, गैर पर से सखन की दूरी बढ़ जाने के बाद भी बच्चे आंगनवाड़ी की पहुँच से दूर नो जायें।

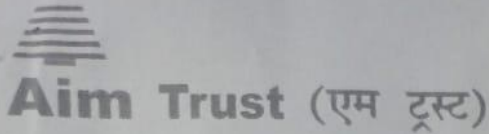

आशा करने हैं कि उत्तर प्रदेश सरकार द्वारा हमारी इस मांग पर गंभीरता से विचार करते हुए कोरोना के संभावित तीसरी लहर से हमारे बच्चों की सुरक्षा के लिए उपरिखित आंगनवाड़ी सेवाओं के संचालन हेतु उचित कदम उठाये जायेंगे।

धन्यवाद।

 बाल-मिलेनी जपद-लखीमपुर-खीरी

विषय - प्राथमिक व उच्च प्राथमिक विद्यालयों में सैनिटाइजेशन करवाने के सम्बन्ध में,

महोदय, सादर अवगत कराना है कि एम ट्रस्ट एक गैर सरकारी संस्था है जो क्लॉड नई दिल्ली (क्लॉड राइट एण्ड ग्रु) के सहयोग से विकास खण्ड-मिलेनी के 13 ग्राम पंचायतों के 12 गांव (कपिथानी, खहरिया बिबाना, अदरीला, सुसोदेई पकरिया, समरसेपुर, दरी, दुसरी, रामपुरवा, चन्दपुरवा, गहिरा, त्रिहृष्या, श्रगवतनगर, लखीरपुर, कैगा और निमचेनी) में बच्चों के अधिकार और गुणवत्ता पूर्ण शिक्षा को केन्द्र कार्य कर रही हैं, जिसके अर्न्तगत लर्निंग कपीर व क्लॉड गतिविधि केंद्र (CAC) संचालन किया जा रहे हैं। वर्तमान में कोरोना महामारी की तीव्री लहर व जीतवादी अकाश के कारण विद्यालय बंद हैं। जो कि सरकार द्वारा 14 फरवरी 2022 से प्राथमिक प्राथमिक विद्यालयों को खोलने का निर्णय लिया गया है।

अतः आपसे निवेदन है कि संस्था के कार्यक्षेत्र व विकास खण्ड के परिषदीय विद्यालयों में सैनिटाइजेशन करवाने का कष्ट करें। जिससे बच्चों को होने वाले संक्रमण के खतरों से बचाया जा सके और विद्यालय पुर्न की शक्ति संभावित किये जा सकें।

The past year has been very difficult for people all around the world especially due to the COVID pandemic which almost paralyzed the globe and now the other strains of Corona Virus has been spreading all over India which has worsened the situation of the people and has created a health crisis and making it very tough for the frontline health workers and doctors to fight against the new strain of the virus. As our governments, medical workers, and scientists struggle to contain and eliminate this viral outbreak, global citizens are doing their part in ensuring safety through awareness, providing food and health related materials. Aim has been actively working with the frontline workers and committed to give its people to the best to get out of this crisis. In the lieu of this Aim with support of CRY-Child Rights & You has distributed health kits to district hospitals of Kheri, U.P. on April 14,2021 and primary health centers (PHCs) Sandilwa, Mitauli, Kheri and Sub Centers of the working area. The health kits include personal hygiene items like spectrum 18 thermometers, 300 gloves, 600 soaps, 15 bottles liquid soaps, 350 bottles hand-

sanitizers,5000 face masks etc. for use by doctors, frontline health workers.

(Mr.Sanjay Rai, Director, Aim and Mr.Santram, Aim staff handing over the health kits to government hospital and health center in Kheri,U.P. on April 13,2021)

A delegation (Sanjay Rai, Director and Dr.Sanjay Kumar, Prof. YDPG College, Kheri) of Aim also met Mr. Shailendra Kumar Singh, IAS, District Magistrate of Kheri - U.P. on April 22, 2021 and handed over 1500 packs of masks. The delegation also discussed regarding protection of children and reverse migrant workers amidst COVID. The team advocated usage of masks by MNREGA and other workers who have started working in groups. During the meeting a concern was also raised about proper implementation of MNREGA, PDS, ICDS, Direct Benefit Transfer and access to other welfare schemes of State and Central Government.

Aim Trust handed over 2000 packets of masks to Uttar Pradesh Cabinet Minister Shri Ashutosh Tandon (Gopal ji) on May 12,2021 and suggested the departmental order for using the masks by all vendors as their public exposure is very high hence

their safety is very important for battling COVID-19. After that he directed their department to ensure mask to all street vendors and shopkeepers.

श्रीमान खण्ड शिक्षा अधिकारी
मितौली, लखीमपुर खीरी।

विषय- 12 उच्च प्राथमिक विद्यालयों में ब्रिज कोर्स संचालित करने के लिए अनुमति के सम्बन्ध में।

महोदय,

सादर अवगत कराना है कि एम ट्रस्ट एक गैर सरकारी संस्था है जो **क्राई नई दिल्ली (Child Right & You)** के सहयोग से लखीमपुर खीरी के मितौली ब्लाक में 13 ग्राम पंचायतों के 25 गांवों में बच्चों की बाल केन्द्रित गुणवत्तापूर्ण शिक्षा, सुरक्षा, स्वास्थ्य व उनके पोषण के मुद्दे पर सरकार एवं समान विचारधारा वाले संगठनों के साथ मिलकर कार्य कर रहा है। संस्था द्वारा कार्यक्षेत्र के गांवों में बच्चों की शिक्षा को जारी रखने के लिए लर्निंग कर्नर व बाल गतिविधि केन्द्र संचालित किये जा रहे हैं। साथ ही 12 गांवों में कक्षा 6 से 8 तक के बच्चों को निःशुल्क शिक्षा प्रदान करने हेतु ब्रिज कोर्स के माध्यम से गणित व विज्ञान विषय का केन्द्र संचालित किया जा रहा है। जिसका उद्देश्य है कि कोरोना काल में विद्यालय बन्द होने के कारण बच्चों में पढाई लिखाई का जो माहौल छूट गया है उसको पुनः वापस लाना है अर्थात जो लर्निंग गैप हुआ है उसको विद्यालय के साथ जुड़ाव कराना है।

अतः श्रीमान जी आपसे अनुरोध है कि इन 12 गांवों (कैमा/ निमचेनी, गनेशपुर, कचियानी, खम्हरिया, पकरिया, सण्डिलवा, बजरखा, दरी, बबौना, ढकिया, पथरा, मुरासा) के उच्च प्राथमिक विद्यालयों में ब्रिज कोर्स संचालित करने के लिए अनुमति प्रदान करने की कृपा करें। जिससे सभी बच्चे पुनः शिक्षा प्राप्त कर सकें ताकि कोई बच्चा ड्राप आउट न हो।

प्रतिलिपि: 1. श्रीमान जिला बेसिक शिक्षा अधिकारी लखीमपुर खीरी।

Aim invited Dr. Preeti Verma Pandey, Hon. Member, UP State Commission for Protection of Child Rights on March 20, 2021 at village Ratahara, Kheri and facilitated to distribute masks.

Aim also handed over demand letter to SCPCR to raise the issue before Kheri based sugar mills such as Bajaj, Birla and Balrampur groups to fulfill the following demands under Corporate Social Responsibility in their working areas.

These demands are –

1. Hand washing facilities should be constructed in all schools and hand washing materials like soap, hand wash, etc. must be ensured.
2. Free sanitary pads must be given to all the adolescent of upper primary school
3. Smartphone will be given to children's parents for online education of children
4. Arrange computer facilities in schools and make smart classes
5. To maintain social distancing in schools, separate seating arrangements must be made for children.
6. During the lockdown and school shutdown, the grains of the midday meal of the children should be distributed in their house.

Aim supported hybrid lauki, petha, kaddu vegetable seeds to 25 women farmers of Bhitara and Musadei Kheri on June 24, 2021.

The COVID pandemic has affected the entire world and has proven to be a great setback to the Global economy. All the sections of the society have equally been affected by the prevailing situation and unfortunately the negative one. From the beginning our partner community suffering have been increased day by day. Movement restriction, loss of livelihood and non-access to market worsen the situation. Aim joined hand with Support Group Covid 19 and Zomato Feed India to support communities. Seeing the urgent need we jumped into direct relief.

In context to U.P. India a large-scale reverse migration by daily wage earners has been observed. Most of the workers lost their jobs and compel to stay their respective villages.

In this condition Aim has been providing assistance to the vulnerable sections of our society. Aim has been distributing 100 masks, 35 food kits, 150 sanitary kits, 150 preventive equipment and dry ration to the people who are in immediate need. We are also educating them of the preventive measures for COVID and facilitating access to Welfare Schemes of the government and raising their issues before the concerned authorities.

Aima distributed food and masks to 55 women sex workers in Manduadih, Varanasi, U.P. India amidst COVID in August 2021. In the prevailing situation they have nowhere to go and their existence is also not acknowledged. Women sex workers neither have a permanent home nor food and they were also not provided with sanitary kits. Therefore, Aim found assisting them the need of the hour and our representatives went to the places they live and provided them with food, masks and sanitary kits because we believe that all the sections of the society are important.

Aim is also working with the Government machinery. Aim is facilitating the issues of the migrant workers for registration in E-Shram Card of Ministry of Labour, their children and other vulnerable sections of the society to the stakeholders in power. Like this we are assisting the workers in their linkage with the other welfare schemes of the U.P. and Government of India.

Director Aim Mr. Sanjay Rai also met Shri Arvind Kumar Sharma, MLC and Rtd IAS from Prime Minister office on October 16, 2021 and discussed regarding increasing cases of child marriages, protection of children and reverse migrant workers amidst COVID. During the meeting a concern was also raised about proper implementation of MNREGA, PDS, ICDS, Direct Benefit Transfer, Kisan Samman Nidhi and access

to other welfare schemes of State and Central Government.

(Director Aim Mr.Sanjay Rai also met Shri Arvind Kumar Sharma, MLC and Rtd IAS from Prime Minister office on October 16, 2021)

Aim Trust is also coming forward and providing assistance to differently abled people of Uttar Pradesh, India. They are one of the most vulnerable people of the society we are supported them 250 food kits and 500 masks.

Mrs. Poonam Kanojia, a washerwoman and her husband Mr. Murli Kanojia, a washer man lives in Lucknow with 3 children. Ever since lockdown started their earnings has drastically reduced and they are planning to go back to their native place Barabank.

Mrs. Anita, a domestic worker lives with her husband Mr. Hansraj and 5 children in Ajay Nagar, Lucknow. After lockdown the people living in houses where she worked are skeptical about her coming and therefore asked her not to come. This has reduced her earning and the family is thinking to go back to Bahraich.

Mrs. RenuYadav who is also a domestic worker and part time tailor lives with her husband Mr. PappuYadav and 5 children and is in no better condition hence she's thinking to reverse migrate to Hardoi. We also talked to Mrs. Priti who lives with her husband and a child. Her husband Mr. Jitendra is a fruit vendor and the lockdown has affected his sale hence they're planning to reverse migrate too.

Aimhas provided them with 50 packets (20 kgs flour,5 kgs, pulses,2 kgs oil,2 kgs sugar, 200 gram masala) ration for a week and motivated them to stay where they are and do not reverse migrate. Migration will eventually have a negative impact on their children's education and their livelihood once things get back to normal. Aim is trying it's best to support them. We have also linked them with welfare schemes of the Government and raised their issues in front of the concerned Authorities. We have also appealed some individuals and institutional donors to support them.

Along with the migrant workers, their children have also caught our attention. Due to reverse migration these children are going through a lot. This is affecting their health adversely. Going back to villages will also have a negative impact on their education. Aim Trust is providing them with food and masks, facilitating their linkage with the welfare schemes of the government and also educating them about the preventive measures for Corona Virus.

Along with all these activities Aim also apprised concerned government departments on different issues of marginalized people and their suffering due to COVID and sent a demand letter on the issues of weavers, regular food and nutrition support to children of vulnerable sections.

During the relief intervention Aim volunteers also observed child abuse and therefore we have also started working with the children which includes educating them and motivating them and their parents for the children's education. We have

also motivated our volunteers and other community-based organizations to address the issues of child abuse. We also organize creative writing and painting, book sharing, story reading with children about improvement of learning level and also the preventive measures of COVID. We are facilitating proper implementation of MNREGA, ICDS, MDM, PDS, Direct Benefit Transfer, immunization of Children etc. In our individual door to door visit children made illustrations of Corona Virus with wild native berries. Aim also organized the field visit of Dr. Preeti Verma Pandey Member SCPCR U.P. to meet the children of its working to see the challenges of education in present scenario regarding smart classes, online teaching and its challenges at community level.

COVID Vaccination support by Aim

Dr.Shipra and Aim Chairperson Mrs. Kamini Jha and Director Mr.Sanjay Rai motivating the 58 women family members of migrants workers for COVID Vaccination on October 27,2021 at Village Ratahara ,Kheri

The detailed discussion was held in the meeting with the SMC and the following final decision came –

1. The learning outcome exam of student will be held on 14 Feb 2021
2. All SMC member will contact the children and ensure 100% participation in exam
3. All SMC member will participate in all meetings of SMC

Aim team distributed sweater to 109 children of HardasiKhera and Vinayak Puram, slums of Lucknow on Jan. 9,2021

Sweaters were distributed to 25 children at Bhagvant Nagar village on January 11, 2021 in Kheri district

A new way of learning through online classes in Jan 2022 by CRY Volunteers of New Delhi

Objectives

- To provide a new way of learning to more than 150 children amidst Covid which has brought a major structural change
- To provide make the access to technology for rural children.
- To continue the learning in backward villages
- To provide remedial classes to children

Online classes started in 2 villages of our working area with 110 children with support of CRY, New Delhi.

On first day of online classes, the teachers took introduction of children and also gave their own intro. After that they taught English subject like 2 letter words with the help of pictures.

It was the first experience of children of online classes. Before starting the classes, children has many questions like

- How we will learn in mobile?
- Will we understand the subject?
- What will they use to teach us?
- Will the class interesting?

Distribution of COVID relief materials

Objectives

- To Distribute materials to 80 needy person and children of family
- To aware community about health and hygiene
- To Aware people about hand washing and benefits of hand washing

Sanitary Pads

For distribution of sanitary pads, first of all we prepared a list of all the adolescent girls of our field area and went to the village and verified the name of all the adolescent girls so that no teenager is left out. While making the list, we took special care that none of the economically weaker families, the differently-abled and the needy were left out of this list.

During the distribution, all the adolescent girls were gathered and it was taken care to follow all the social distancing. After this, all the teenagers were discussed and explained about their physical health and their rights were also explained. At the same time, it was also explained that if anyone violates their rights, then complain immediately to the concerned departments without getting scared. Gram Pradhan, Anganwadi, SMC member, Asha etc. were specially invited for distribution and sanitary pads were distributed with their

hands.

Soaps

In the context of Mitauli area, people do not have the habit of washing hands after defecation and before eating, as a result of which people become more ill as well as fall prey to various skin related diseases which affect their children more.

To bring the children into hand wash practice and to make the parents aware of the benefits of hand wash, talks were made prior to soap dispensation and selected families who were financially weak and had children in their homes so that the children can be protected from disease and corona spreading due to not washing hands.

Surgical Mask and Handwash

PHC (Primary Health Centre), Sandilwa is situated at middle of the Kasta and Piperjhala Road and also our field. Approx. 50 villages people including 15 villages of our field area comes to Sandilwa PHC for their normal treatment. It is very easy to reach there and get proper treatment after registration cost of Rs. 1/- It was found that the PHC Sandilwa is very important for needy people around Kasta and Piperjhala. So we have decided to give our handwash and surgical mask kit to this PHC. We gave 100 Surgical mask and 50 handwash to MOIC of Sandilwa PHC. After getting this, they appreciated our work and said they will help in our work and together will plan some health camps to our area.

Liquid Soap and Mask

As we all know that ICDS Worker, Asha, ANM and Supervisors (staff) are directly connected with the community and every day they constantly go to the field to talk about their problems and their service. All these people are also associated with the people of the community along with adolescent girls and children and get in touch to know their daily updates.

Due to all these things, it is very important for all the above to be healthy as many people are directly benefited by their service, so liquid soap and mask were given to all of the above so that all of them will not only be healthy but also benefit people from their services.

Children Celebrated International Child Day

Objective-

- To celebrate World Children Day to inform children of villages
- To spread awareness among the children and the community regarding the celebrations and rights of children.

250 Children of Bhagwant Nagar, Nimcheni, Kaima, Osari and Samarseypur of our project intervention area celebrated International Child Day on 20th November 2021 and developed design from locally available leaves and other materials. Adolescent girls also made posters for this. It was told that International Child Day is observed globally on 20 November every year. The day is celebrated to promote international togetherness, awareness among children worldwide, and improving children's welfare. November 20th is an important date as it is the date in 1959 when the UN General Assembly adopted the Declaration of the Rights of the child.

AIM Trust runs mobile library for unprivileged children

Objective

- To increase the interest of the children and keep the connected towards education amidst COVID-19
- Children of underprivileged community also can have access to different types of books in their villages
- To spread awareness and a healthy environment among the villages regarding the importance of education and age-appropriate education

Aim is a U.P. based civil society organisation works on the education of the children of those from deprived community in Mitauli Block of Kheri district of U.P. with the support of CRY-Child Rights and You UK. Aim plays a vital role to get the children out of this crisis and keep the children connected to their education with aim to age-appropriate learning.

Every 15th day of the month, our field coordinators travel among the villages of our intervention area armed with small cartons filled with books carrying on scooty / bike / rickshaw. “Children in the villages eagerly await me. It is heart-warming to see their enthusiasm to read,” one of our field coordinators, Ms. Pinki says. Due to the pandemic schools were closed and no mechanism was availed to the government schools i.e. primary, middle and high school. Later on government ordered to provide online classes to the children by government schools but there was no training given to the teachers. Shivani a student of Samarsepur village told that children of this community generally don’t have access to smart phone so this practice failed to keep the children connected to the education. She also added that “Now we take books from ma’am and return after reading and ask for new books. The mobile library initiative has helped me to improve of education during this lockdown where schools are closed and we don’t have any other means of learning.” Children were not able to meet their teachers and they also had psychological pressure that when this all going to end. Adolescents generally are not allowed to go anywhere neither they have access to good books nor are they able to bear the cost of the books. Children receive latest books of poems, stories, creative ideas and NCERT pattern books as well. The mobility library helps us to serve the unprivileged community by reaching to more children or children in need and

sensitize the community for education.

Training on NCERT Pedagogy & Teaching Learning Materials TLM Distribution

Objective

- To give training on pedagogy to build the capacity of the supervisors, teachers.
- To enhance the learning capacity of the children through creative learning and teaching.
- To distribute the TLMs (teaching learning materials) to teachers to effecting learning and teaching.

One day training on pedagogy and distribution of TLMs (teaching learning materials) was conducted at RatahraMitauli under the project 'Children Rights to Quality Education' by AIM CRY- Child Rights and You. The meeting started at

11:00 a.m. on 19th Dec 2021. Mr. Sanjay Verma introduced the training and its purpose and handed over to Mr. Harish Kumar ji so he shared his experience with all the participants and told about the training purpose. He conducted 3 activities regarding the challenges faced by the children. He gave case studies to the participants to solve so everyone replied in their way. He described the methods and

types of pedagogy. Dr. Sanjay Kumar shared his experience of teaching and also talked about the child centred and child friendly education. Mr. Sanjay Rai told about the usage of locally available resources for TLM making to enhance the participation of the children in education and make it interesting. He also talked about the present challenges and continuous efforts for getting the schools opened. Mr. Sanjay Verma, research coordinator conducted an activity and told how to make the education not a burden to children but interesting. He told about the communication barriers during the class and after the class with effective solution. At last, TLMs- teaching learning materials were distributed to the teachers by the resource person of their respective villages. The meeting got over at 4:00 p.m.
